

Digital Patient Communication Solutions

Digital patient smart boards, tablets and mobile apps from Vizabli

A leader in healthcare communications solutions for decades, Taylor Healthcare has partnered with Vizabli to offer their complete line of digital patient communications tools.

Patient Room Door Board

Empower staff and visitors with important patient care details before they enter the room.

Centralized Nursing Board

Provide up-to-the-minute information on all patients in a convenient, centralized location.

Mobile Communications

Streamline communications between patients, families and staff via mobile device.

Engaging Those Who Matter Most

Vizabli's technology solutions are designed to optimize patient and family experiences while elevating staff productivity.

Patient Engagement

Improve patients' experiences by keeping them connected to care teams and family.

Staff Engagement

Keep staff current on each patient's care journey while putting time back into the day.

Family Engagement

Give family and friends instant access to the patient, care teams and medical updates.
