

Shrink Sleeves

A true end-to-end solution to build your brand

Eye-catching, durable and cost-effective, shrink sleeves have revolutionized product packaging. Taylor is leading the way with a comprehensive labeling solution that combines everything you need in a single source.

A Wide Range of Products

Taylor can create shrink sleeves for nearly any type of application.

- Full-body sleeves
- Multi-packs
- Tamper-evident bands
- Individual sleeves or rolls

The Perfect Film for Every Need

We help you choose a shrink film that will perform efficiently on your production line while exploring opportunities to reduce your cost and environmental footprint.

- PVC
- OPS
- PETG
- Hybrid films

From Inception to Commercialization

Taylor serves as a trusted partner to your operations team, sleeve equipment vendors, marketing department and art/prepress suppliers. We provide ongoing field technical service visits to ensure satisfaction and proactively identify opportunities to increase efficiencies.

The Taylor logo features the word "TAYLOR" in a bold, black, sans-serif font. A red stylized arrow points upwards from the letter "A".

Expertise from End to End

Taylor's in-house team of label and packaging specialists can guide you every step of the way.
