

National Eagle Center

Celebrating a treasured icon

The world's premier venue for bald eagle education wanted to release a commemorative book in conjunction with National Eagle Day — but time was running short.

The Occasions Group, a Taylor company dedicated to fine printing and finishing, created a sculpted die to emboss the book's end sheets with the image of an eagle. Corporate Graphics (CG), a Taylor company specializing in book manufacturing, printed the book with precise G7® color and added both spot gloss UV and soft-touch matte embellishments.

CG's account services team sprang into action as soon as the first pieces were completed, hand-delivering boxes of books to National Eagle Center representatives in time for National Eagle Day festivities.

Corporate Graphics made it easy to create a book we can **proudly** share.
