

Trisource Exhibits

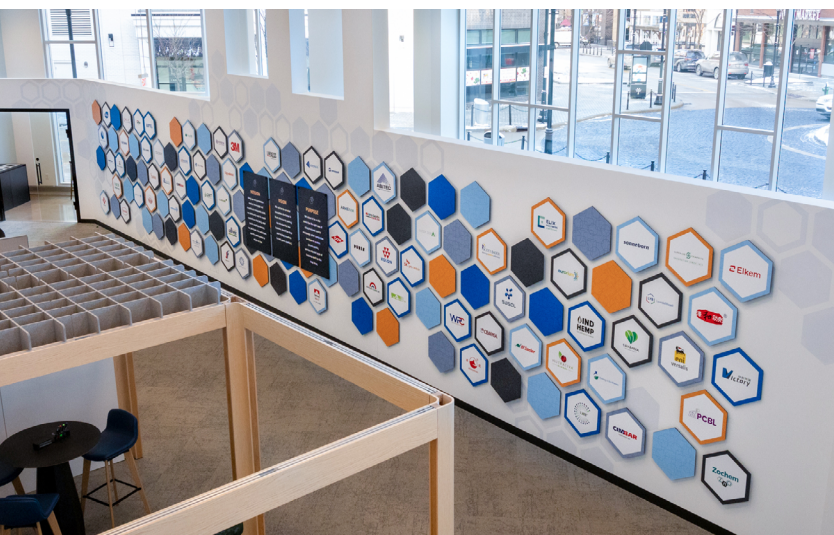

Providing solutions behind the scenes

An industrial products distributor wanted their new headquarters lobby to capture the attention of all who entered. They hired Trisource Exhibits to create an elaborate “feature wall” that shined a spotlight on clients worldwide.

Trisource, in turn, called upon Taylor for its expertise with signage materials and custom fabrication. Taylor used Trisource’s designs to craft dozens of signage components from black acrylic, Sintra PVC, ACTION™ Magnet and more. Detailed installation instructions then enabled Trisource to mount the finished pieces with precision.

CASE STUDY

Taylor being a **one-stop shop** was the biggest selling point for us. We didn’t have to find other vendors to work with us. **Taylor did it all!**
