

Capabilities that Enhance the Quality of Care

A healthcare partner like no other

Taylor Healthcare provides the broadest array of communications products and services for the healthcare industry today. From label and wristband programs that ensure positive patient identification, to signs and graphics that enhance the patient experience throughout the continuum of care, to digital informed consent and check-in technologies that increase both operational efficiency and patient safety, Taylor Healthcare is focused on the unique needs of the healthcare industry like no other provider.

These capabilities are bolstered by our relationship with Taylor Corporation, one of the largest and most diverse graphic communications companies in North America. Through this affiliation, we gain access to a vast assortment of communications offerings that enable us to address every conceivable patient touchpoint. Everything from commercial print and document management services, to promotional marketing and apparel programs, to sophisticated direct mail campaigns — and much more — is available through one relationship.

The result is a single-source communications partner who can streamline communications delivery for your entire organization, deliver sustained year-over-year cost reductions and enhance the quality of care along the way.

A Complete Solution in a Single Source

No other communications partner can match the range of capabilities available through Taylor Healthcare. As an integral part of Taylor Corporation, we are uniquely positioned to help improve patient experiences and outcomes while unlocking new sources of efficiency for your organization.
